

ULTIMedia expands to London and Dubai

• 13 Apr 2007

ULTIMedia announced that it has expanded its operations by opening new offices in London and Dubai. This expansion comes shortly after ULTIMedia opened its operations in the United States at Rockefeller Center in New York. The expansion plan will support clients where ULTIMedia already has established a solid customer base.

“We are committed to expanding our brand in areas where we have seen potential for growth and where we have existing clients,» said Eric Dumouchel, ULTIMedia’s founder and CEO. “We recently established operations in the USA and plan additional expansion globally. The offices in London and Dubai are strategic locations for us.”

ULTIMedia is a Gold Sponsor at KioskCom in Las Vegas and in New York in October. The company is also providing kiosk solutions for the registration and digital signage programs at both events.
