

Kiosk manufacturer ULTIMedia opens U.S. operations

• 03 Apr 2007

NEW YORK — ULTIMedia announced it has established a U.S.-based operation. The U.S. Division's corporate office is at Rockefeller Center in New York City.

"ULTIMedia is very excited about opening its new office. We are absolutely committed to expanding our brand beyond Europe and see many opportunities in the North America," Eric Dumouchel, ULTIMedia's founder and chief executive, said. "We already have a number of projects that we've completed in the USA and see great opportunities in servicing customers in the USA, Canada and Mexico."

ULTIMedia plans to open an additional operation on the West Coast. "We feel it is important to have both East and West Coast operations. It is better for our clients if we have two operation centers to service their needs," said Dumouchel.

ULTIMedia-USA is a wholly owned subsidiary of ULTIMedia, France. The company markets and manufactures ULTIMedia products and services in North America.
